

Complete solutions

You are looking for a complete vision solution or a partner who will accompany you from the idea to the implementation? With our partner program for system integrators we have the right thing for you!

While we remain focused on developing and producing powerful and innovative camera components, our system integrators offer

- **turnkey solutions for individual image processing applications in different industries,**

but also single solutions like

- feasibility studies,
- consultations,
- integrations and installations,
- support and services.

The system integrators of our partner program are certified and trained partners with years of experience in their respective fields.
