

Sponsoring

MATRIX VISION GmbH makes chosen products available for free or reduced prices to interested education facilities, which have the focus on [industrial image processing](#).

With the sponsoring we want to have a share in equipping the laboratories and workstations of universities, universities of applied sciences and institutes with up-to-date products for study and research.

Application for sponsoring program

Are you interested in the sponsoring program and want to take part? Please follow the link and fill in the application form. Please don't forget to report briefly your project.
